Snetterton Stage Rally 2022

Supplementary Regulations

INTRODUCTION

Welcome to the 2022 SNETTERTON STAGE RALLY supported by G&B Finch Limited, Rix Engineering and our newest sponsor MASS Racing Limited. We are delighted to confirm that the event will be the 6th round of the prestigious Motorsport News Circuit Rally Championship as well as regional association championships. The 2022 event follows on from the successful events run by Anglia Motor Sport Club (www.amscl.org.uk) at the Snetterton Circuit.

Whilst this year's format is similar to last year, we are featuring a new start area with good spectator viewing and new short sections of track to provide added interest. The stages utilise the looser tracks on the outside of the circuit, offering mixed surfaces with about 10% gravel.

IMPORTANT INFORMATION

Entries to other recent rallies have quickly filled and a prompt and complete response is needed to ensure the best opportunity of an entry being accepted. A sample entry form is shown on the event website (www.snettertonstagerally.co.uk) with the mandatory information for an entry to be accepted requirements highlighted. The organisers will be managing the entry process to help ensure entry applications are handled fairly. To that end entrants must provide sufficient information with their entry and no entry will be confirmed until three days after entries open. Please carefully read section 15 of these Supplementary Regulations and comply with them to give yourself the best chance of an entry being accepted. The entry fee has been set to be attractive to all competitors and as the entries have been limited to 100, competitors are invited to submit their entries as soon as the entries open for what it is anticipated will be a popular event.

The organisers would like to thank G&B Finch Limited and Rix Engineering for their continued sponsorship and a new sponsor Mass Racing Ltd., which is very much appreciated and to recognise the support of the MSV management and staff at Snetterton.

The event will be running under any COVID 19 Guidelines from the UK Government and Motorsport UK as they stand at the time of the event.

As these SRs are being prepared, we are all too well aware of the Covid-19 pandemic remains an issue we all face. We will be taking precautions to minimize the risks associated for all those involved, Competitors, Marshals and Officials alike. We will continue with many of the changes including more electronic dealings rather than paperwork that we introduced for the 2021 event.

Without the support of the many marshals involved, the event would not take place. We ideally need more marshals to be available to support the event. Please encourage non-competing friends and family to enroll as marshals on the event website (www.snettertonstagerally.co.uk). Please contact the chief marshal of this event if you would like any advice or guidance. We do our best to make marshals welcome and there are goodie bags, cakes, bacon rolls and hot drinks as well as the marshals' draw.

N.B. The initial list of "Accepted" entries will not be published until after the lottery process to determine successful entries. This is expected to be Thursday 20th January 2022

It is a requirement for acceptance that entries are completed in full, including the seeding information. Completing the form diligently helps tremendously with the documentation and saves tedious follow up. It is also very important suitable information is provided for the seeding of entries. Incomplete information will not only mean that entries may not be seeded correctly but could impinge on the safety of the event. **Entries without complete details may not be accepted or if accepted, removed from the entry and replaced by a reserve.** The media information must be added by 31st January at the latest, otherwise the entry may be placed on the reserve list and replaced with an existing reserve entry.

If more than one change of Driver or Co-driver's name in an accepted entry is made, then the entry will be classed as incomplete and may be entered into the reserve list.

Entry fees will be refunded, subject funds available? See below:

Up to and including 31/01/2022 – A full refund (except for failed payments) available provided written or email confirmation of such is received by the Entries Secretary before the end of 31/01/2022. Otherwise: for notifications after 31/01/2022 or non-appearances; only Motorsport UK Fees & Insurance refunded. Signed on Competitors who fail to start will forfeit the whole entry fee.

If the event is cancelled, the level of refund is contingent on the availability of event funds after irrecoverable costs. In particular, should the circuit owners fail to refund any significant part of the circuit fee paid, only partial refunds are expected to be possible.

Competitor Bulletins will be posted on the event Virtual Notice Board only.

Snetterton Stage Rally 2022

Supplementary Regulations

Control Procedure

Further detail will be provided prior to the event on precisely how time information will be conveyed to competitors. You should book into the Main Time Control (MTC (Out)) at the exit from the Service Area at the time published on the Virtual Notice Board. After the Stop there will be a RC Control where you will be issued your time for the next MTC preceding the next Stage. The Final Control of the Rally is a MTC which is deemed an MTC (In).

Main Time Controls (MTC (Out)) Re-join Point Motorsport GR R40.1.6 & R40.1.7

All Special Stages will be preceded by an MTC designated an MTC (Out). Two cars will ordinarily be due at the MTC (Out) per minute. The Actual Arrival Time at MTC Controls will be the time that the competitor shows on his timecard through the window to the marshal. A "Real Time Display" will be sited at the Red Control board. Marshals will record that time on their check sheet. The Co-driver should record this time on their timecard. Any competitor who arrives early should wait outside the control area (before the yellow board), only entering the control on the minute before their due time. For example, if the due time is 09:04, then the control should be entered between 09:03:00 and 09:03:59.

Special Stages (SS)

Competitors will start all Stages at 30 second intervals. A Bogey Time will be set at no more than 75 mph and a Stage Maximum Time set at approximately 30 mph.

All Competitors will receive penalties and accumulate lateness as follows: -

- | | | |
|----|-------------------------------------|-------------------|
| a) | Bogey Time or under | Bogey Time |
| b) | Over Bogey, but under Stage Maximum | Actual Time Taken |
| c) | Stage Maximum or over | Stage Maximum |

Special Stage Start Control (SSS)

Once a time has been given at the MTC (Out), a crew must proceed without delay to the SSS.

Stage Start Control – Line Up

Competitors will be called visually to the Start Line in the order they entered the control.

Alignment Lights will be used to ensure the position is correct. WATCH THE ARROWS FOR INSTRUCTION.

The display at the Start Line will be dual function, with a display using "Real Time" plus the traditional countdown light sequence of five amber lights and a green indicating "GO" with automatic false start detection by beam as per Motorsport UK GR R25.7.3. The Traffic Light Start Sequence is as below; no verbal warnings will be given, and the competitor should leave the start on the Green light.

Supplementary Regulations

Special Stage Flying Finish and Stop Control (SSF)

The Flying Finish will have a light beam which is linked to the Digital Clock at the Stop Line. At the Stop Line, a marshal will enter the Car Number onto their check sheet and into the Timer. When this happens the competitor's car number and finish time will appear on the display at the Stop Line. The Co-driver should record the time on the timecard. If there is a query, it should be raised with the Competitor Liaison Officers and not at the Stop Line. They should move off swiftly as soon as the marshal has indicated to do so and return to the Service Area. Any crew who fails to stop at the Special Stage Finish Control must not, under pain of disqualification, reverse to the stop line, but must return on foot.

Regroup Control (RC)

At the SSF Control at the end of Stages 1 to 7, competitors will return to the service area as stated in the Roadbook for the next Service Halt via a RC control which is designated an MTC (IN) Control. The restart time will be provided by display or orally and will be your due time at the MTC (Out) for the next stage for you to record on your own timecard.

Main Time Control (MTC (In))

After the last stage of the event there will be an MTC (In) Control which will be the finish of the event.

21 Servicing and Parc Ferme

The Service Area will be at Snetterton Circuit. Servicing is defined as work being carried out on the competing car by any person other than the competing crew, or the use of any parts or tools not carried in the competing car. Servicing will only be permitted in the Central Service Area, see Motorsport UK GR R38 & R39.

Competitors are reminded that they are responsible for the actions of their service crew who must comply with instructions from Marshals and Officials. Motorsport UK Guidelines on Service Area Safety must be followed.

Details for Trailer Parking will be published in Competitor Bulletin No 1. All other parts of the circuit will be out-of-bounds to service vehicles except the access road to and from the service area. Service crews will not be permitted to go to the assistance of competitors who break down on a Special Stage. Cars which are stranded out on the stage may have to remain there until the end of the event. The organisers will endeavour to move cars which are in a dangerous position but do not guarantee to provide assistance in returning them to the Service Area, although reasonable effort will be made to clear broken down vehicles in between each pair of Special Stages.

Parc Ferme

In the area between the MTC and the SSS designated as "Parc Ferme", the only work permitted in these areas is the following (unassisted): Cleaning lamp glasses, windscreens, windows, identification markings and vehicle registration numbers.

Motorsport UK requirements for servicing will be published in a competitor bulletin. See Motorsport UK web-site <https://www.motorsportuk.org/the-sport/rally-future/>. All servicing must be carried out with the competing vehicle on a groundsheet. The use of cutting, grinding or welding equipment in the service area at any time is prohibited.
